

**Public Notice**  
**Meeting Announcements**  
**Terrebonne Parish Hazard Mitigation Plan Update 2020**  
**Steering Committee Meeting**

The Terrebonne Parish Consolidated Government, at the Direction of Parish President Gordon E. Dove and with the support of the Parish Council, is updating the Hazard Mitigation Plan. The last plan update was completed in 2015, and there have been many efforts to reduce the flood and wind risks in the Parish. The purpose of the plan update is to identify the risk that remains, and pursue preventative measures that will reduce future damages from natural hazards. During the second meeting, the Steering Committee and anyone interested in participating will complete the review of the existing plan and discuss the progress and events over the last five years. This is the beginning of the risk assessment and community impacts portion of the planning effort.

The public is encouraged to attend this meeting. Other meetings in the evening will be held to allow for more public input at a convenient time. Please visit the Parish website for more information and resources. A copy of the current Hazard Mitigation Plan and all other materials that will be made available on the website will also be available in print at 8026 Main Street on the Second Floor for public review.

**November 5, 2019**  
**10:00-12:00**
