

While Louisiana is not known for a lot of snow and ice, winter weather can affect us from time to time. Remember these driving tips in winter weather

1. Don't drive if you don't have to.
2. Don't drive distracted.
3. No cruise control.
4. Allow more stopping room in front of you.
5. Be mindful of black ice, drive slow.
6. Use lower gears on hills and slopes.
7. Look ahead and be prepared.
8. Watch out for 1st responders.

*The earlier you can detect a skid or slide,  
the easier it will be to recover.*
