PRESS RELEASE

BOIL WATER ADVISORY

December 22, 2016
12 noon

Consolidated Waterworks District No.1, with the Louisiana Department of Health's knowledge and approval, issues a Boil Water Advisory in the Dulac, Lower Dulac and Four Point areas of Terrebonne Parish. Damage to a fire hydrant caused low pressure to the area of 7500 Shrimpers Row and 7603 Grand Caillou Road south including Four Point. Please see attached affected area map. It is recommended that all consumers disinfect their water before consuming it, this includes fountain drinks, making ice, brushing teeth or using it for food preparation or rinsing of food. Water can be disinfected by boiling for 1 minute, starting after reaching a rolling boil.

Again, this Boil Water Advisory will remain in effect until water has been sampled and proven safe for human consumption. Please stay tuned to your news outlets, visit our website, www.tpcw.org, or follow our facebook page or follow us on twitter.

M. Sobert
12/22/16

2. Shrimpers Row and all intersecting streets from 7550 to the end of the road.

1. Grand Caillou Rd and all intersecting streets from the Dulac Water Tower, 7603 to the end of the road, including Four Point.

Boil Water Advisory:

A boil water advisory is in effect for the following area of Terrebonne Parish

- 1. Grand Caillou Road South from 7603 Grand Caillou Road (Dulac Water Tower) to the end of the road including all intersecting streets and Four Point.
- 2. Shrimpers Row south from 7550 south to the end of the road including all intersecting streets.
