TERREBONNE PARISH CONSOLIDATED GOVERNMENT

May 3, 2011

Dear Business Leader,

Terrebonne Parish is embarking on an exciting process to update our Comprehensive Master Plan, which was first adopted in 2003. In the wake of several large-scale natural disasters, such as the Hurricanes Ike and Gustav, we need to envision how our "Good Earth" can become more sustainable and resilient while still retaining our culture and the things that make our great parish unique. The involvement of business in the Vision 2030 process is crucial to how this process will begin and end.

This update will envision the possible growth of our culture, livelihood, workforce, education, environmental health, transportation and our economy and will encompass the best parts of our parish. Similar Master Plan projects have helped to strengthen the local economy, broaden the base of potential sectors in the economy and increase the strength of the local workforce of other parishes in Louisiana. The business community must become involved in this effort. The Vision of 2030 becomes dim if we have failed to involve YOU! Please become involved in making this parish even greater than it is today.

In order to ensure as much public participation as possible, we'll be coordinating a series of public meetings throughout the parish. We'd love for you to stop by the most convenient location and become a part of this process. Please visit www.tpcg.org and access our meeting schedule. We look forward to working with you in the coming months!

Sincerely,

Michel Claudet
Parish President

Daniel Babin
Chairman, Houma-Terrebonne Regional Planning Commission
