Re: Terrebonne Parish Operations Update

PLEASE NOTE: All current TPCG services are 100% operational and the parish will continue to provide ALL services from all Government Buildings including Government Towers. Governments will be closed to the public only.

In an effort to provide a safe work environment, Government Towers was disinfected yesterday. Beginning today, March 23rd, Government Towers will be closed to the public. Security will be on hand to answer, via phone, any questions someone who comes to the building may have. The Government Towers drive thru lanes, located on Gabasse Street, will be open to the public to use to drop documents, applications, and utility payments Monday – Thursday from 8:00 am to 4:00 pm. Beginning Friday, March 26, 2020, Government Towers, including the drive thru lanes will be closed on Fridays only, until further notice, to all Parish employees and the public. This will allow Government Towers, and all other Government buildings, including the Courthouse to be disinfected on a weekly basis. The public is requested to utilize the utility drop box located in the drive thru area of the Gabasse Street parking lot on Friday's to drop off utility payments, documents, and applications.

The Terrebonne Parish switchboard will operate with normal business hours, Monday – Thursday. The Parish's answering service will receive calls on Friday during the closure of Government Tower and direct calls to the appropriate department. After hours calls and weekend calls will continue to be answered by the Parish's answering service.

Please note all TPCG services will be operating at 100% as stated above.

Respectfully,

Gordon E. Dove
Parish President
