

FOR IMMEDIATE RELEASE

June 29, 2016

AERIAL SPRAYING FOR MOSQUITOES

Mosquito Control Services is planning an aerial adulticiding mission to respond to nuisance mosquito activity on the evening of Friday July 1, 2016 between the hours of 7:30 p.m. and 10:00 p.m. We will be using a Twin-Engine King Air aircraft that is white with red and blue stripes. The area of treatment will be the city of Houma area in response to the 4th of July festivities. If weather conditions on the evening of July 1, 2016 force the cancellation of the scheduled flight, aerial spraying will take place on the first subsequent evening on which weather conditions permit.

For more information, contact the Mosquito Control Service office at 985-580-1629.
