Questions? No problem! Email us at employment@tpcg.org.

ESSENTIAL FUNCTIONS

1. Operate public-owned sewerage treatment plants, including operating valves, gates, aerators, chemical feed equipment, pumps, motors, sludge equipment, and controls.
2. Perform cleanup duties on equipment, tanks, lines, and other items needed for proper unit process operation, as well as glassware and the laboratory.
3. Collect samples and perform quality control laboratory analysis for BOD5, TSS, pH, DO, residual chlorine, settleability, and fecal coliform. Perform operation tests for sludge volume index, food/mass ratio, and mixed liquor suspended solids.
4. Interpret chemical analyses and take appropriate corrective action to maintain the operating facility within discharge permit limitations.
5. Monitor gauges, alarms, meters, and control panels.
6. Maintain operating logs. Operate data acquisition computer and telemetry console.
7. Monitor sludge and supernatant quality and operate sludge dewatering equipment.
8. Perform preventative maintenance on operating equipment.
9. Perform other duties as assigned by supervisor.

GENERAL REQUIREMENTS

1. Learn and practice applicable safety rules and regulations.
2. Willingness to obtain certifications as training and experience allows.
3. Ability to pass examination for provided classroom trainings in allotted time frames.
4. Ability to comprehend mechanics and operational procedures of equipment and units assigned, including pretreatment, primary treatment, secondary treatment, sludge treatment, digestion, chlorination, and sulfonation.
5. Ability to interpret written and oral instructions.
6. Maintain personal phone for emergency callout purposes.

EDUCATION, EXPERIENCE, AND LICENSES

1. High school diploma or GED certificate required.
2. Ability to attain state certification in Wastewater Treatment IV within the time frame set by Pollution Control.
3. Previous experience in wastewater plant operation preferred.
4. Possess and maintain valid Louisiana driver's license.
